

# Sustainable Site Practices & Invasive Species Management

October 22 & 23, 2025

Held at Washtenaw County Extension Office  
(705 N. Zeeb Rd., Ann Arbor) and Parker Mill  
Park (4650 Geddes Rd., Ann Arbor)

*\*exact location subject to change\**

This 1.5 day professional training is designed for landscape industry professionals seeking practical, field-ready strategies for managing invasive plants and insects, navigating evolving regulatory requirements, and integrating sustainable site practices. Participants will gain up-to-date insights from state and local experts, engage in hands-on training with application equipment and invasive species ID/control, and explore real-world alternatives for turf management, pollinator protection, and stormwater site design.
