460.707 Association of public utilities having underground facilities; formation and operation; purpose; notification; services; costs; description of area served; list of members; record.

Sec. 7. (1) Public utilities having underground facilities shall form and operate an association providing for mutual receipt of notification of construction activities in those areas served by public utilities having underground facilities. Notification to the association formed and operated by the public utilities shall be considered to be notice to each public utility having underground facilities within the proposed areas of excavation, discharging of explosives, tunneling, demolition, drilling, or boring. Notification to the association shall be effected in writing as set forth in section 5 or by telephone call, providing the same information required by section 5, made by the person or public agency responsible for the excavating, demolishing, discharging of explosives, drilling or boring procedures, or tunneling operations. A public utility owned by a public agency shall participate in and receive the services furnished by the association and shall pay their share of the costs and services furnished, but shall not be required to become a member of the association. The association, whose members or participants have underground facilities within a county, shall file with the clerk of the county a description of the geographical area served by the association and list the name and address of every member and participating public utility.

(2) If notification is made by telephone an adequate record shall be maintained by the association to document compliance with the requirements of this act.

460.708 Information as to approximate location of underground facilities; color coding; additional assistance; removal or protection of facilities.

Sec. 8. Not less than 1 working day in advance of proposed construction, unless otherwise agreed between the person or public agency performing the excavation, discharging of explosives, drilling, boring, tunneling, or demolition and the public utility, a public utility served with notice pursuant to section 5 or 7 shall inform the person or public agency of the approximate location of the underground facilities owned or operated by the public utility in the proposed area of excavation, discharging of explosives, drilling, boring, tunneling, or demolition, in a manner that enables the person or public agency to employ hand dug test holes or other similar means of establishing the precise location of the underground facilities using reasonable care to establish the precise location of the underground facilities in advance of construction. For the purposes of this act, the approximate location of underground facilities is defined as a strip of land at least 36 inches wide but not wider than the width of the facility plus 18 inches on either side of the facility. If the approximate location of an underground facility is marked with stakes or other physical means, the public utility shall follow the color coding prescribed in this section.

Utility and Type of Product	Specific Group Identifying Color
Electric power distribution and transmission	Safety red
Municipal electric systems	Safety red
Gas distribution and transmission	High visibility safety yellow
Oil distribution and transmission	High visibility safety yellow
Dangerous materials, product lines	High visibility safety yellow
Telephone and telegraph systems	Safety alert orange
Cable television	Safety alert orange
Police and fire communications	Safety alert orange
Water systems	Safety precaution blue
Sewer systems	Safety brown
Storm drains	Safety green
Land survey monumentation	High visibility safety pink

All safety alert orange markings shall include the name or type of the company who owns the underground facility to be marked. If the precise location of the underground facilities cannot be established, the person or public agency shall then notify the public utility, which shall no later than 1 working day after the notice provide such further assistance as may be needed to determine the precise location of the underground facilities in advance of the proposed excavating, tunneling, discharging of explosives, drilling or boring procedures, or demolition operations. Where demolition of a building is proposed and the public utility is notified, it shall be given reasonable time to remove or protect its facilities before demolition of the building.

***** 460.710 THIS SECTION IS REPEALED BY ACT 174 OF 2013 EFFECTIVE APRIL 1, 2014 *****

460.710 Effect of permits; working agreements not precluded.

Sec. 10. This act shall not be construed to authorize, affect, or impair local ordinances, charters or other provisions of law requiring permits to be obtained before excavating or tunneling in a public street or highway or to construct or demolish buildings or other structures on private property nor construed to grant to any person or public agency any rights not specifically provided by this act. A permit issued by a public agency shall not be deemed to relieve a person from the responsibility for complying with the provisions of this act. The failure of any person, who has been granted a permit, to comply with the provision of this act shall not be

deemed to impose any liability upon the public agency issuing the permit. This act shall not preclude establishment of working agreements between public utilities and contractor associations to accomplish the intent and purpose of this act.

460.712 Damage to underground facilities; notice; evacuation.

Sec. 12. When any contact with or damage to any pipe, cable, or its protective coating or any other underground facility of a public utility occurs, the public utility shall be notified immediately by the person or public agency responsible for the operations causing the damage. Upon receiving the notice, the public utility shall dispatch personnel to the location as soon as possible to effect temporary or permanent repair of the damage. If a serious electrical short is occurring or if dangerous fluids or gases are escaping from a broken line, the person or public agency responsible for the operations causing the damage shall evacuate the immediate area while awaiting the arrival of the public utility personnel.
